

# GAS PRESSURE TEST KIT

Convenient Kit Perfect For Testing LP and Natural Gas Controls

The **Series LPTK Gas Pressure Test Kit** is ideal for testing LP and natural gas lines and controls. The kit's gage shows if proper pressure is present or if a leak exists. Series LPTK is easier to use than a manometer and includes a sturdy case for added durability and safe handling.

## BENEFITS/FEATURES

- Calibration screw on the back of the gage
- Simple interface for ease of use

## APPLICATIONS

- Combustion gas supply monitoring and testing

## SPECIFICATIONS

**Service:** Compatible gases.  
**Wetted Materials:** Gage: brass, hose: rubber.  
**Housing Materials:** Steel with black finish.  
**Lens:** Polycarbonate.  
**Accuracy:** ±3% FS.  
**Pressure Limit:** 110% of range.  
**Temperature Limits:** -40 to 150°F (-40 to 65°C).  
**Size:** 2-1/2" (63 mm).  
**Process Connections:** 1/8" NPT, brass hose barb.  
**Case:** ABS plastic.  
**Hose:** Rubber, 36" (91.4 cm).  
**Tube Nipple:** Rubber.  
**Weight:** 1.75 lb (0.8 kg).

MODEL CHART	
Model	Range
LPTK-01	0 to 15 in w.c. and 0 to 8.6 oz/in <sup>2</sup>
LPTK-02	0 to 32 in w.c. and 0 to 18.5 oz/in <sup>2</sup>
LPTK-03	0 to 4 kPa and 0 to 40 mbar
LPTK-04	0 to 8 kPa and 0 to 80 mbar

**Note:** Consult factory for other range options.
